

# Cataloging savings as easy as 1-2-3

Why should your library spend a fortune on cataloging when The Library Corporation can provide high-quality service at a fraction of the price? TLC's powerful suite of cataloging tools connects your library to 41 million MARC records from most of the same sources you already trust, including the Library of Congress, the British Library, and the National Library of Canada.

TLC's top-of-the-line yet affordable cataloging solution includes three powerful resources:

- 1) **ITS•MARC®** -- One of the world's largest, most current copy cataloging resources available. With easy access methods – Z39.50 and World Wide Web – MARC records are delivered with the quickest search technology in the library industry. ITS•MARC is updated daily with records from the Library of Congress, and a score of other databases are updated weekly, monthly, or quarterly. Best of all, ITS•MARC is offered at one low, fixed annual price, so your library can easily budget for access to a massive pool of MARC records.
- 2) **BiblioFile®** -- TLC's cataloging software for the desktop harnesses the vast amount of metadata available from ITS•MARC and other databases. BiblioFile has a respected track record of serving libraries since 1985. Today, BiblioFile continues to offer powerful data manipulation features, local database and authority processing control, MARC record validation, label printing, book jacket views, Unicode features, and much more.
- 3) **Cataloger's Reference Shelf** – A context-sensitive digital library of MARC manuals and lookup tables is included free with all TLC cataloging software products, including BiblioFile. The CRS is based on two dozen electronic MARC manuals and reference works published by the Library of Congress, and has proven to be an invaluable tool for libraries by providing quick, easily accessed information about cataloging standards. The Web version of CRS is available to all users free of charge.

Discover for yourself how saving money on your library's cataloging needs is as easy as 1-2-3. For a free 30-day trial of ITS•MARC and BiblioFile with CRS, call TLC at 1.800.325.7759. You have nothing to lose and a great deal of money to save.
